

SCHOOL OF TECHNOLOGY WOXSEN UNIVERSITY

Kamkole, Sadasivpet, Hyderabad, Telangana

COURSE PLAN

Programme : B. Tech – CSE, DSAI, A&R

Course : Computational Thinking and Problem Solving with Python

Course Code : 23CSE101

No. of credits: 4

Semester : I

Session : ODD

Batch : 2023-2027

Prepared by : Prof. Rahul Kumar Gupta

Email : Rahul.gupta@woxsen.edu.in

COURSE PLAN

A. PREREQUISITE:

a. Basic Understanding of algebra (Class 10th Level)

B. PROGRAM OUTCOMES (POs) and PROGRAM SPECIFIC OUTCOMES (PSOs) for

- **B1. PROGRAM OUTCOMES (POs):** Engineering Graduates will be able to:
 - **PLO1.** Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
 - **PLO2.** Problem analysis: Identify, formulate, review research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
 - **PLO3. Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
 - **PLO4.** Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
 - **PLO5.** Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
 - **PLO6.** The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
 - **PLO7.** Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
 - **PLO8.** Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
 - **PLO9. Individual and teamwork:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
 - **PLO10. Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
 - **PLO11. Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PLO12. Life-long learning: Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

B2. Program Specific Outcomes (PSOs): Graduates will be able to:

- **PSO1.** Analyze and develop computer programs in the core areas through modern programming languages
- **PSO2.** Demonstrate their skills in the field of machine learning, cloud computing, web applications to address the need of the industry.
- **PSO3.** Apply their knowledge for providing novel solutions to the existing real-world problems.

C. COURSE OUTCOMES (CO)

At the end of this course students should be able to:

- **CLO1.** Develop algorithmic solutions to simple computational problems, read, write, execute, and structure simple Python programs for solving problems.
- **CLO2.** Decompose a Python program into functions and represent compound data using Python lists, tuples, and dictionaries.
- **CLO3.** Read and write data to/from files in Python Programs.
- **CLO4.** Able to understand and solve Competitive Coding Problems.

Table: Correlation of PLOs and PSOs v/s CLOs

| PLO/ | PLO1 | PLO2 | PLO3 | PLO4 | PLO5 | PLO6 | PLO7 | PLO8 | PLO9 | PLO10 | PLO11 | PLO12 | PSO1 | PSO2 | PSO3 |
|------|------|------|------|------|------|------|------|------|------|-------|-------|-------|------|------|------|
| CLO | | | | | | | | | | | | | | | |
| CLO1 | 3 | 2 | | | | | | | | | | 1 | | | |
| CLO2 | 3 | 3 | | | 1 | | | 1 | | | | 1 | | | |
| CLO3 | 3 | 3 | | | 1 | | | 1 | | | | 1 | | | |
| CLO4 | 2 | 2 | 2 | 2 | | | | | | | | 2 | 3 | 3 | 3 |
| Avg | | | | | | | | | | | | | | | |

1: Slight (Low)

2: Moderate (Medium)

3: Substantial (High)

D. PEDAGOGY

- Lecture (L) / Discussion (D) / Deliberation (De)
- Coursera Courses, NPTEL videos
- CodeChef Problem Practice

E. COURSE COMPLETION PLAN

| Total Classroom sessions | 35 |
|--------------------------|----|
| Total Virtual sessions | 00 |
| Total Tests | 02 |
| Total Assignments | 02 |
| Coursera | 01 |

One Classroom Session = 60 minutes

F. EVALUATION & GRADING

Students will be evaluated based on the following:

| S. No. | Assessment | Weightage | Schedule |
|--------|--------------------------------|-----------|-------------------|
| 1 | Internal Assessment (IA) | 60% | Detailed Below |
| 2 | End-semester Examination (ESE) | 40% | Academic Calendar |

F1. INTERNAL ASSESSMENT: WEIGHTAGE = 60%

Internal Assessment shall be done based on the following:

| S. No. | Description | Weightage out of 60 Marks |
|--------|---------------------------|---------------------------|
| 1 | Assignment - 1 | 10 |
| 2 | Quiz – 1 | 10 |
| 3 | Assessment - 2 | 15 |
| 4 | Quiz – 2 | 10 |
| 5 | Coursera (Certification) | 15 |

- **F2.** Internal Assessment Record Sheet will be displayed online at the end of the semester i.e. last week of regular classroom teaching.
- **F3. QUIZZES & ASSESSMENTS:** Two assignments will be given at end of Unit-2 and Unit-5. There will be 2 Class Tests based on descriptive type theoretical & numerical questions based on objective type questions will be held. All assessment will be finished before the End Term Examination.
 - Those who do not appear in Viva-Voce and quiz examinations shall lose their marks.
 - The marks obtained by the students will be displayed on LMS after complete the each Test, and displayed all marks on LMS before End Term Examinations respectively.
- **F4. ASSIGNMENTS:** There will be home assignments based on theory and numerical problems. Those who fail to submit the assignments by the due date shall lose their marks.
- **F5. MOOC COURSES:** There will be MOOC /Coursera courses suggested by the course instructor. They are meant to be completed by the students before finalizing the internal assessment record sheet. Those who fail to complete the suggested MOOC /Coursera courses shall lose their marks.
- **F5. GENERAL DISCIPLINE:** Based on students' regularity, punctuality, sincerity, and participation in the interactions.

The marks obtained by the students will be displayed on LMS at the end of the semester.

F6. END TERM EXAMINATION:

WEIGHTAGE - 40%

End Term Examination shall be Three Hours duration and shall be a combination of Short and Long theory/numerical Questions.

| F7. GRADING: | |
|---|--|
| The overall marks obtained at the end of the semester | comprising all the above four mentioned shall be |
| converted to a grade. | |
| G. Slow and Advanced Learners | |
| Identification of slow & advanced learners and supporting | ig methodology. |
| | |
| | |
| | |
| | |
| | |

GUIDELINES:

Cell Phones and other Electronic Communication Devices: Cell phones and other electronic communication devices (such as Blackberries/Laptops) are not permitted in classes during Tests or the Mid/Final Examination. Such devices MUST be turned off in the class room.

.

Attendance: Students are required to have minimum attendance of 75% in each subject. Students with less than said percentage shall **NOT** be allowed to appear in the end semester examination.

Course learner outcome assessment: To assess the fulfilment of course outcomes two different approaches have been decided. Degree of fulfillment of course outcomes will be assessed in different ways through direct assessment and indirect assessment. In Direct Assessment, it is measured through quizzes, tests, assignment, Mid-term and/or End-term examinations. It is suggested that each examination is designed in such a way that it can address one or two outcomes (depending upon the course completion). Indirect assessment is done through the student survey which needs to be designed by the faculty (sample format is given below) and it shall be conducted towards the end of course completion. The evaluation of the achievement of the Course Outcomes shall be done by analyzing the inputs received through Direct and Indirect Assessments and then corrective actions suggested for further improvement Capping.

Passing criterion:

- Minimum 75 % Attendance required to attend Internals.
- Minimum 50 % Marks required in Internal to attend End-Semester Examinations.
- Passing Criterion for B. Tech: Minimum 50% of the marks in the end semester.
